1 Survey Overview

1.1 Background to the survey

The Scottish Household Survey (SHS) is a continuous survey based on a sample of the general population in private residences in Scotland. The survey started in 1999 and up to 2011 followed a fairly consistent survey design. From 2012 onwards, the survey was substantially redesigned to include elements of the Scottish House Condition Survey¹ (SHCS) including the follow-up Physical Survey component. The survey is run through a consortium led by Ipsos MORI.

The SHS is designed to provide reliable and up-to-date information on the composition, characteristics, attitudes and behaviour of private households and individuals, both nationally and at a sub-national level and to examine the physical condition of Scotland's homes. It covers a wide range of topics to allow links to be made between different policy areas. The specific aims of the survey are:

- Meet central and local Government needs for priority policy relevant data across a broad range of topics (including needs for continuing time-series of data collected by the SHS and SHCS previously);
- Be understandable and useful to stakeholders and so lead to a high level of buy-in and use of the SHS;
- Have built in flexibility to respond to different data needs regarding geography and frequency (e.g. to provide some data annually at Local Authority level, and some biennially at national level), and changes to these requirements over time;
- Align with other surveys and data vehicles (in particular the Scottish Health Survey and Scottish Crime and Justice Survey);
- Produce high quality data in accordance with the Code of Practice for Official Statistics² so as to provide data that is suitable for the production of National Statistics publications in a cost effective way;
- To permit disaggregation of information both geographically and in terms of population sub-groups (such as families with children or households in the social rented sector);

¹ www.scotland.gov.uk/SHCS

² www.statisticsauthority.gov.uk/assessment/code-of-practice/index.html

- To allow the relationships between social variables within households to be examined. This will support cross-analysis on a range of issues;
- To allow detailed follow-up surveys of sub-samples from the main survey sample, if required.

1.2 Survey Design

As noted earlier, from January 2012 a new SHS went in to the field which had a substantially restructured sample design and integrated the previous SHCS. The new survey uses a fully unclustered core and modular structure with some questions being asked of the full sample and others of a one-third sub-sample. The overall sample size has reduced from around 14,000 household interviews to about 11,000 though improvements in efficiency of the survey design mean it will be possible to attain local authority estimates on an annual basis where analysis permits. While the overall sample size of the survey has reduced, the survey design improvements has meant that the precision of estimates have not been affected significantly.

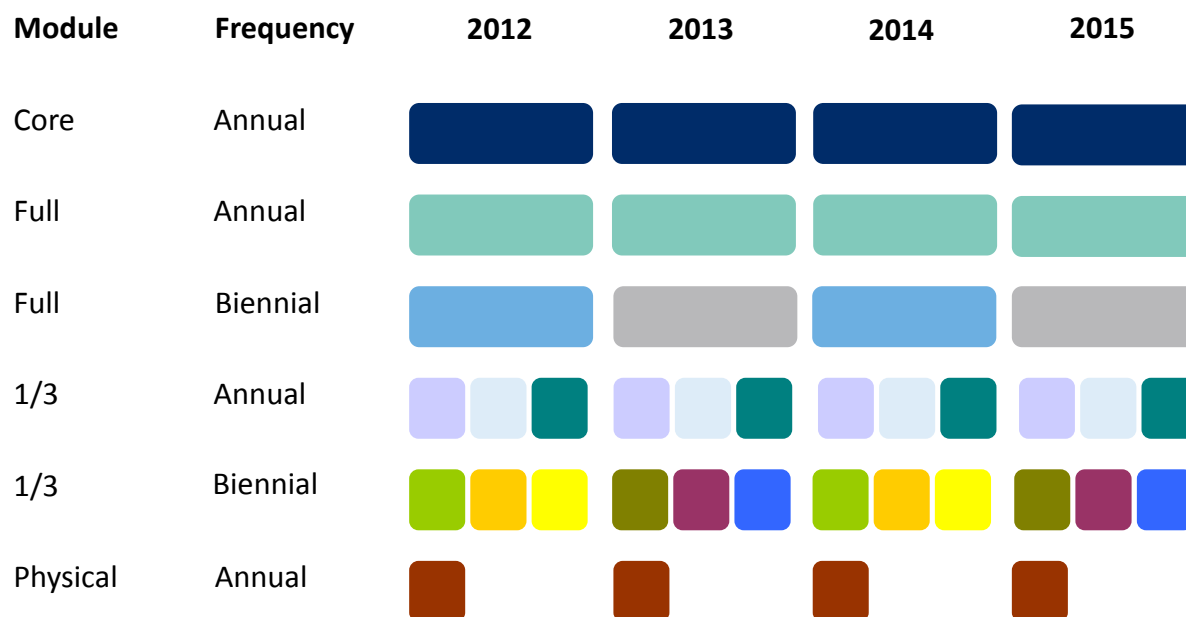

Diagram 1.1 provides a simplified visual representation of how the core and modular design is structured within each year (between 2012 and 2016) and how this rotates and replicates across subsequent years.³ This includes a “core” set of 20 questions, which have been designed to be asked in consistent ways with other surveys e.g. age and gender - the Scottish Survey Core Questions (SSCQ). The subsequent “modules” of questions have been designed to be flexible in terms of topic, frequency and geography. For example, questions asked of the “full” sample and asked on an “annual” basis would be able to provide local authority level on an annual basis. Similarly, some questions are only asked of “1/3” of the sample on a “biennial” basis (i.e. asked every second year). Such questions would only get national level estimates every second year.

The survey questionnaire itself is structured in three main parts:

- Household (including ‘Random Child’);
- Random Adult (including ‘Travel Diary’); and
- Physical inspection of dwelling.

³ Diagram 1.1 is not necessarily representative of the exact number and size of full annual and biennial, one-third annual and one-third biennial topics and questions asked in each year of the survey

Diagram 1.1: Representation of multi-year core and modular design

The household reference person, who is the Highest Income Householder (HIH) or their spouse/partner completes part one of the interview ('Household'). Details of all members of the household, including children, are collected during the household interview. This includes questions related to the composition and characteristics of the household, and involves capturing basic demographic information of all members of the household, such as gender, age and economic situation at this stage, as well as detailed information on dwelling characteristics as captured through the old SHCS. The topics covered in the Household section of the survey are presented in Figure 1.1.

	<p>HH – HOUSEHOLD INCOME</p> <p>The routing in the income section is particularly complex. Income information is gathered about the Highest Income Householder, his or her spouse or partner and the Random Adult. The routing will depend on who is being interviewed (HIH or partner).</p> <p>Approximately 30% of all households have some missing data in the household income section either because they refuse to provide the information or they do not know some or all of the information. The information collected from these questions is used to impute values that are missing. Because of the high level of missing information in the raw data, only the final cleaned and imputed data is included in public datasets.</p>			
	<p>INTRO: The next group of questions is about your household's income. This will help us analyse the information on the survey's main topics – for example, to find out the extent of home ownership, car driving and Internet use by people with different levels of income. In order to make best use of the survey's information, we need to ask about various types of income, otherwise our results could be misleading. But please remember that everything you tell me is completely confidential, and will only be used for the purpose of producing statistics.</p>

START OF TRAVEL DIARY – 2016

STARTDAY

We are collecting detailed information about the journeys people make, so I'd like to ask you some questions about what you did yesterday.

By yesterday I mean the whole period from midnight at the start of {CALCDAY} to midnight at the end of {CALCDAY}

Thinking about where you were just after MIDNIGHT at the start of {CALCDAY}, were you at home or were you somewhere else?

Home [1]
Elsewhere [2]

CALCDAY is before yesterday so if interviewing on ...

Monday CALCDAY reads SUNDAY
Tuesday reads MONDAY

STARTFROM

If STARTDAY = 2

So where were you at just after midnight last night?

Organisation/shop	
Postcode	
Number/street/road	
District/area	
Post town/city	

In transit [1]

If the person is in transit – already in the middle of a journey that started before midnight such as on a bus or plane, walking home, etc – STARTFROM should be coded In Transit and person skipped to TRANSIT to collect first stopping point after that journey's end.

TRANSIT

Ask if STARTFROM = 1 (in transit)

You say you were in the middle of journey at midnight. Where did that journey end? What was the first place you stopped (in the UK)?

Home [1]
Work [2]

Elsewhere

Organisation/shop	
Postcode	
Number/street/road	
District/area	
Post town/city	

ENDDAY

And where did you end the day? Where were you at midnight last night?

Home [1]
{STARTFROM} [2]
Elsewhere [3]

STARTFROM should be omitted if In Transit coded.

ENDUP

If ENDDAY = 3

So where were you at midnight last night?

Organisation/shop	
Postcode	
Number/street/road	
District/area	
Post town/city	

TRIPSOUT

If (STARTDAY=1 and ENDDAY=1) OR (STARTDAY=2 and TRANSIT = 1 and ENDDAY=1) OR (STARTDAY = 2 and ENDDAY = 2)

We are interested in personal journeys people make and in trips made in the course of work to meetings etc. We are not recording trips made where it is someone's job to make deliveries or where they drive a bus, taxi or other vehicle for a living.

Did you go out at all yesterday?

- Yes [1]
- No [2]

GENTRIPCHECK

If TRIPSOUT = 2

Are you sure you didn't leave TO go out at all yesterday, even for a short journey up the road?

- I definitely DIDN'T go out yesterday [1]
- actually I DID go out yesterday [2]

DEST1

If (ENDDAY ne STARTDAY) or TRIPSOUT = 1 or GENTRIPCHECK = 2

Thinking about the first JOURNEY YOU made yesterday after leaving {startday}, what was that journey for?

SCRIPTING AMENDMENT REQUIRED

- Go home [1]
- Go to a meeting in the course of work [2]
- To to work [3]
- Go to the shops [4]
- Visit friend [5]
- Visit family [6]
- Take child(ren) to or collect from school / nursery [7]
- Go to school / college/ university [8]
- Dog walking / other walk / exercise [9]
- Other [10]
- Go to {ENDDAY} [11]

These precodes take the place of the journey purposes, which can be clarified later. They are used here to create a closed loop between STARTDAY and ENDDAY and to provide input for text substitutions and checks.

The precodes account for the purpose given for 75% of all journeys some are split to be used in checks and text subs later.

IF WORK AT HOME (RD1=2) THEN HIDE WORK PRECODE. [3]

DEST1CHK1	<p>If JOURNEY = 1 and DEST1 = 1 AND (STARTDAY = 1 or TRANSIT = 1)</p> <p>You said you started the day at HOME so the destination for the first trip needs to be somewhere other than home.</p> <p>Go back to DEST and select another destination for the journey [1] Go back to STARTDAY and amend [2]</p>	<p>The first journey may have been to walk the dog or go for a run and it would have been a circular Home to Home journey but it would be better to have the destination / purpose recorded as that here and confirm the circularity later.</p> <p>Wording of DEST1 should discourage this.</p>
DEST1CHK2	<p>If DEST1 = 2 or DEST1 = 3 and HA7(RA) ne 1 or 2 or 3</p> <p>You said you went to work to but earlier your main economic activity was recorded AS {HA7(RA)}. CAN I just confirm that you also have a job?</p> <p>Yes, continue [1] No, roll back to DEST1 and change destination [2]</p>	<p>HA7(RA) is the main economic activity recorded for the person selected as the random adult.</p> <p>Include volunteering as a job.</p> <p>This check would need to be asked the first time it is used but if confirmed, suppressed for subsequent journeys.</p>
DEST1CHK3	<p>If DEST1 = 8 and HA7(RA) ne 7 or 8</p> <p>You said you went to school / college / university but earlier your main economic activity was recorded AS {HA7(RA)}. Can I just check that you also attend ...(READ OUT).</p> <p>School as a pupil, YES continue [1] College as a student, YES continue [2] University as a student, YES continue [3] No, None of these – roll back to DEST1 and amend [4]</p>	<p>HA7(RA) is the main economic activity recorded for the person selected as the random adult.</p> <p>This check would need to be asked the first time it is used but if confirmed, suppressed for subsequent journeys.</p>
DEST1CHK4	<p>If DEST1 = 7 and TOTKIDS = 0 and SCHOOLKIDS = 0</p> <p>You said you took children to school but there are no children recorded in your household. Can I just confirm that that answer – took children to school – is correct?</p> <p>Yes, correct, continue [1] No, didn't take children to school. Roll back to DEST1 and amend [2]</p>	<p>TOTKIDS and SCHOOLKIDS overlap but schoolkids includes 16 to 18 year olds who are at school.</p> <p>This check would need to be asked the first time it is used but if confirmed, suppressed for subsequent journeys.</p>

DESTWORD1

If DEST1 = 9 or 10

Interviewer: Choose an option that most closely describes the activity or write in another term

- dog walking [1]
- walk [2]
- run [3]
- cycle [4]
- drive [5]
- day trip [6]

- the park [8]
- the gym [9]
- the bank [10]
- the council office [11]
- the doctors [12]
- the hospital [13]
- another personal appointment [14]

- the pub [15]
- the restaurant [16]
- the cinema [17]

- on holiday [18]

- Other [19]

This collects a key word to be used for text substitutions in follow-up questions. If we feel this list is comprehensive enough it could substitute for the old PURPOSE question – these codes collapse down into the existing categories. The Other option should then become the 'other'.

We'll establish later if it was an 'escort' trip or a series of calls but that doesn't matter for now.

I like this approach – people like to be able to identify with a particular description rather than something generic that covers a few similar activities.

Will respondents see this list? If so, need to think about the order and the length of the list vs respondent burden. (If not, perhaps still a consideration for order for interviewer).

KEYWORD1

this variable is not shown – It compiles the destinations from **DEST1** and **DESTWORD1** into a single set of text substitutions that can be used in follow-up questions. They will be the option wording from the question except for

- Work work
- Shops the shops
- Visit friend your friend's
- Visit relative your relative's
- Took child(ren) to school / nursery the school / nursery
- Went to school / college/ university school
- college
- university

- Dog walking take the dog out
- Walk your walk
- Run your run
- Cycle your cycle
- Drive your drive
- Day trip your day trip

Went to school / college/ university – substitution depends on answer at DEST1CHK3

DEST2CHK2	<p>If DEST2 = 12 and (DEST1 = 2 THRU 7 or DESTWORD1 = 7 thru 17)</p> <p>CAN I just check – you went from {STARTDAY} to KEYWORD1 and didn't go anywhere else yesterday? That would mean you stayed at KEYWORD1 until after midnight last night?</p> <p>Yes, that's correct [1] No, I did go somewhere else – roll back to DEST2 and amend [2]</p>	<p>The only way there could be no more journeys after DEST1 is if DEST1 is circular (checked next) and there are no more journeys or the person stayed at DEST1 until after midnight. If they left before midnight then we need to record the journey even if it finishes after midnight.</p>	
DEST2CHK3	<p>If DEST2 = 11 and (DEST1 = 8 or DESTWORD = 1 thru 6 or DESTWORD1 = 19)</p> <p>can I just check that your {keyword1} was from {DEST1} back to {DEST1} and you didn't stop Anywhere?</p> <p>Yes, that's correct [1] No, I did stop somewhere – roll back to DEST2 and amend [2]</p>	<p>Checks that journeys that could be circular are actually circular – same start and end place and no stopping. In processing we can substitute STARTDAY as the destination.</p> <p>Risk of "anywhere" being taken literally – dog stopping for a pee, walkers stopping for a rest or to admire the view.</p>	<p>Hopefully any misunderstandings can be minimised by clear interviewer guidance and making sure that journeys are (at least) being recorded consistently.</p>

DEST2CHK4

If DEST2 = 2 and HA7(RA) ne 1 or 2 or 3

You said you went to work but earlier your main economic activity was recorded AS {HA7(RA)}. CAN I just confirm that you also have a job?

Yes, continue [1]
No, roll back to DEST and change destination [2]

DEST2CHK5

If DEST2 = 7 and HA7(RA) ne 7 or 8

You said you went to school / college / university but earlier your main economic activity was recorded AS {HA7(RA)}. Can I just check that you also attend ...(READ OUT).

College as a student, continue [2]
University as a student, continue [3]

DEST2CHK6

If DEST2 = 6 and TOTKIDS = 0 and SCHOOLKIDS = 0

You said you took children to school but there are no children recorded in your household. Can I just confirm that that answer – took children to school – is correct?

Yes, correct, continue [1]
No, didn't take children to school. Roll back to DEST and amend [2]

DESTWORD2

DEST2CHK7

CIRC1 = 1 if DEST1 = 9 or DESTWORD1 = 1 thru 6 or 18

CIRC2 = 1 if DEST2 = 9 or DESTWORD2 = 1 thru 6 or 18

If DEST2 = DEST1 and NOT (CIRC1 = 1 AND CIRC2 = 1)

You said you next went to **DEST2** but this is the same destination as your previous journey. Did you go somewhere else between these two journeys?

- No, this is correct [1]
- Yes, I did go somewhere else – Roll back to DEST2 and amend [2]

Same destinations for consecutive journeys would only make sense if they are both potentially circular journeys – two dog walking journeys with no other journeys between would make sense. Two trips to work, without returning home or going somewhere else wouldn't. Unless DEST1 is a potentially circular journey, we should look for the missing journey.

There's the potential for two different 'other' options to be selected at DEST1 and DEST2 but the chances are slim and it would only result in data entry being checked.

Went to school / college/ university – substitution depends on answer at DEST3CHK4

journeys 4 to 10 can follow the same pattern as journey3.

PURREVIEW

Just to confirm then, these are all the trips you made yesterday

1. from STARTDAY to KEYWORD1
2. from KEYWORD1 to KEYWORD2
3. from KEYWORD2 to KEYWORD3
4. from KEYWORD3 to KEYWORD4
5. from KEYWORD4 to KEYWORD5
6. from KEYWORD5 to KEYWORD6
7. from KEYWORD6 to KEYWORD7
8. from KEYWORD7 to KEYWORD8
9. from KEYWORD8 to KEYWORD9
10. from KEYWORD9 to KEYWORD10

Is that correct or did you make any other trips during day such as going out at lunchtime or in the evening?

Yes, correct	[1]
No (add more trips)	[2]

ORIGINCHECK

Ask for Journey 1

Can I just check that you started your first trip, to KEYWORD1, from {STARTDAY}?

- Yes [1]
- No [2]

Note: This question checks only the first journey of the day. If the answer is no, the script collects the details of the start point in the same format as StartDay.

Q5BNEW

Ask for first stage only of second and subsequent journeys

So after you went to {Keywordx}, can I just check that your next journey started from {previous journey destination – see destkeyx after final}?

- Yes [1]
- No [2]

The start destination of each journey should equal the end destination of the previous journey. So two new questions added to tighten up the journey information.

{previous journey destination - destkey is created after the final destination}

Q5BS1

Ask if Q5Bnew = 2 OR IF ORIGINCHECK = 2.

Where did the journey after you went to {Keywordx} start from?
INTERVIEWER: ADD COMMENT TO EXPLAIN.

KNOWDEST1

Ask if KEYWORDx = 1, otherwise go to KNOWDEST2

Deals with potential duplication of effort – interviewers filling info about home address when not necessary.

Can I confirm that your journey going to {KEYWORDx} ended at {home – insert address from sample}.

- Yes [1]
- No [2]

KNOWDEST2

If KEYWORDx = 3 and RD1 not 1, 2 or 3

Deals with a potential problem of people with more than 1 job where destination is work but not the address of main job collected at RD1. Also people working somewhere other than main job location.

Can I confirm that your journey going {KEYWORDx} ended at {Work – insert address from RD1open}.

- Yes [1]
- No [2]
